RICHARD HARRISON

★★★★★

“I was super sceptical about SMP, but knew I was a poor candidate for a hair transplant due to poor donor area from the back and sides having previously had one.I did a lot of research and discovered Piotr. He called me on Watts app at a time....”

MATT LINDNER

★★★★★

“Piotr is one of the most skilled and well respected SMP practitioners in the world, and doing SMP treatments is his absolute passion. He is meticulous in his work and his attention to fine details is outstanding.. From the first consultation, to the ...”

Frequently Asked Question (FAQ)

Does smp look natural

Scalp micropigmentation is becoming more popular due to its natural and undetectable results. We are proud to provide one of the most natural results in the industry. Each hairline design, hairline finish and follicle replication is customised according to our bespoke hairline design technique. We will perfectly match the shade based on your existing hair colour and skin tone, so you do not need to worry. Check out our gallery for examples of our work.

Why Choose SMP Studio

SMP Studio is the brainchild of Piotr Fliger, an internationally recognised and award-winning scalp micro pigmentation artist.

Piotr's passion for his work is evident in the SMP Studio locations in London, Bristol and Preoria - all of which set themselves apart from the competition by delivering a highest level of service and quality results.

Piotr's passion for his work shines through at SMP Studio, where he and his team strive to stand out from the competition. Knowing that they are helping people feel better about themselves is what drives them to be the best at what they do.

SMP Studio is a leading provider of scalp micro pigmentation training and treatments. The company believes in delivering the best quality services to its clients, with an emphasis on safety and maintaining high standards. The company has been in operation for over five years, during which he has trained students from four different continents to the highest standards in the industry.
